

# Join The Drive - The ArtsDrive™

## Welcome Fellow Artists, Entrepreneurs, and Local Merchants!

Greetings,

My name is David Frank, and I am the creator and founder of ArtsDrive™, a partnership project of Working Legacy, PBC. **ArtsDrive™ is a large scale grassroots project dedicated to** connect and support local arts, business and community members to drive economic growth and help advocate for the importance of arts education in our schools.

**The ArtsDrive™ model has been researched, tested and revised over the last 15 years. Contrary to the hyper growth business models of today, we are building a TEAM of local partners who see beyond the value of our products and services and understand the real importance of working together as a community to build greater lasting value for all.**

- As an entrepreneur and creative myself, I understand the challenges of building a brick and mortar business, struggling to be self-employed, and the importance as well as the challenges of online marketing. As a result, I also appreciate the need to provide our members with tangible value and services for their commitment to join our network.
- **Our offering is simple: to provide you with affordable, professional media and marketing assets that support your goals and expand your visibility and reach.**
- **Please note**, while I have outlined several Partnership Opportunities in this pamphlet, no one Partnership is treated the same since we strive to create a win/win relationship based on your individual needs, goals and budget.
  - Once you select a Partnership Opportunity, we will set up a meeting with you to customize a strategy and service to best meet your needs.

I invite you to contact me directly so we may discuss how our TEAM can best help promote your business and the local community. I look forward to the opportunity to visit with you.

*MAKE EVERYDAY COUNT!*

CHEERS  
DAVID
